e-mail to [sales@computop.de](mailto:sales@computop.de)**

# Computop

## Our Strengths

We are your competent partner for solutions in payment transactions within Germany and internationally.

Our most important task over the last ten years has been personal, individual customer support.

Experienced staff and dynamic process management in accordance with ISO 9001 are your guarantee of quality.

More than 700 customers representing every business sector can't be wrong – they know and value our quality.

Our experienced, flexible and effective team translates individual wishes into reality – quickly, professionally and to your advantage.

### **Networked partnerships**

Many years of partnership with international financial companies enable us to offer you a one stop comprehensive package of solutions for your electronic payment transactions, from credit card contracts and foreign accounts to merchandise management.

You profit from our integrated portfolio of innovative solutions for payment standards in Germany, Europe and around the globe.

### **Perfect security**

Your security is our business. Our optional security solutions offer comprehensive payment security and fraud prevention. Over and above this we follow the strictest security guidelines, such as PCI from VISA and MasterCard.

# Computop Our Paygate

The Computop Paygate combines classical and innovative methods of payment at home and abroad. Over and above that, it protects your business with functions for payment guarantee and fraud prevention.
